EULA (End User License Agreement)

By signing this document, the users who will make use of the released properties of the PepperPose project (e.g., paper, data, code, pre-trained models, etc.) agree to the following terms:

1. Commercial use

The user **may only** use the properties for academic research. The user **may not** use the properties for any commercial purposes. Commercial purposes include, but are not limited to:

- training or proving the efficiency of commercial systems,
- using screenshots/plots of the properties in advertisements,
- selling data from the properties,
- creating military applications,
- developing governmental systems used in public spaces

2. Responsibility

This document must be signed by a person with a permanent position at an academic institute (the signee). This includes the person who hold the position of at least the lecturer or assistant professor of the academic institute. Up to five other users affiliated with the same institute for whom the signee is responsible may be named at the end of this document which will allow them to work with these properties.

3. Distribution

The user may not distribute the properties or portions thereof in any way, with the exception of using small portions of data for the exclusive purpose of clarifying academic publications or presentations.

4. Access

The user may only use the properties after this End User License Agreement (EULA) has been signed and returned to the provider. The signed EULA should be returned in digital format by email to:

PepperPose Authors
Emails: mvrjustid@gmail.com

Subject of the email: EULA for PepperPose

Upon receipt of the EULA, access will be given to the properties. The user may not transfer/share this access to the properties to/with anyone. The user may not grant anyone access to the properties by giving out their username and password if any was provided.

5. Publications

Publications include not only papers, but also presentations for conferences or educational purposes. The user may use code and data from the properties in publications.

All documents, presentations, and papers that report on research that uses the PepperPose properties should acknowledge this by citing the following papers:

Chongyang Wang, Siqi Zheng, Lingxiao Zhong, Chun Yu, Chen Liang, Yuntao Wang, Yuan Gao, Tin Lun Lam, and Yuanchun Shi. "PepperPose: Full-Body Pose Estimation with a Companion Robot." In Proceedings of the CHI Conference on Human Factors in Computing Systems, pp. 1-16. 2024.

6. Changes

The PepperPose properties administrators reserve the right to change this EULA at any time; users will be informed about changes beforehand and given the choice to opt out of the new EULA. Opting out will render the previous EULA void (and thus the user will lose their right to use the properties).

7. Warranty

The properties come without any warranty, the PepperPose properties administrators cannot be held accountable for any damage (physical, financial or otherwise) caused by the use of the properties.

8. Misuse

If at any point, the administrators of PepperPose properties and/or the provider have a reasonable doubt that the user does not act in accordance to this EULA, he/ she will be notified of this and will immediately be declined further use of and access to the properties.
